

PROPOSAL FOR MANAGEMENT SERVICES

838 Seneca Ave SW Renton, Washington

24,592 SF · 1.41 acres · Single-tenant industrial · Earlington Industrial Park

Prepared for **Thomas Family Properties, LLC**

Dear Thomas Family Properties, LLC,

Thank you for the opportunity to submit a proposal for Management Services for 838 Seneca Ave SW.

While the building is vacant, AGM will provide a focused interim scope designed to protect the asset and keep it ready to lease. This includes routine on-site security and condition checks, oversight of utilities and building systems, fire sprinkler monitoring and inspections, and coordination of vendors for grounds, landscaping, and repairs. Ownership will receive regular reports throughout this period.

During the vacancy, management is billed at $750 per month. Once the building is leased, the fee becomes 3% of gross rents, subject to a $1,500 monthly minimum, so the cost of management scales with the income the property generates.

AGM's management approach is grounded in the protection and growth of invested capital. We operate each asset with fiduciary discipline by controlling operating expenses, providing transparent monthly financial reporting through our Owner Portal, and preserving physical condition through proactive maintenance and capital planning. The result for Ownership is a well-maintained asset, predictable costs, and a single accountable point of contact.

We appreciate the opportunity to be considered and look forward to working with you.

Sincerely,

Troy Gessel

Principal

The Property

A 24,592 SF single-tenant industrial building on 1.41 acres in Renton. The asset, the lease status, the responsibility split under the lease and the compliance obligations that come with an industrial site.

The building is vacant and being marketed. The inspection schedule, the scope and the fee are all sized to a single-tenant industrial asset.

The Asset | 838 SENECA AVE SW, RENTON

838 SENECA AVE SW · EARLINGTON INDUSTRIAL PARK

BUILDING	**24,592 SF** single-story masonry warehouse and office, one building
SITE	**61,495 SF** (1.41 acres) · Earlington Industrial Park, Renton, WA
CONFIGURATION	Open distribution space, front office with mezzanine, full sprinkler coverage, ample on-site parking
YEAR BUILT	1985, effective year 1989
PRESENT USE	Warehouse
ZONING	**IM**, Medium Industrial, City of Renton
PARCEL	214600-0040
LEGAL DESCRIPTION	Lot 2 of City of Renton Short Plat LUA 98-017, recording number 9810129022, a portion of Lot 4, Earlington Industrial Park No. 1
ASSESSED VALUE	$4,534,300 total for the 2026 valuation year. Land $1,429,700, improvements $3,104,600
OWNERSHIP ENTITY	Thomas Family Properties, LLC

Building, site, zoning and valuation figures are from the King County Assessor record for parcel 214600-0040, 2026 valuation year. Clear height and loading are not carried in the assessor record and are confirmed on the first site inspection.

The Property

A 24,592 SF single-tenant industrial building on 1.41 acres in Renton. The asset, the lease status, the responsibility split under the lease and the compliance obligations that come with an industrial site.

838 SENECA AVE SW

01 / 09

Tenancy & Lease Status | SINGLE TENANT

CURRENT STATUS	**Vacant.** No tenant is in place. Another broker is marketing the building, and AGM will support that broker as needed.
AT COMMENCEMENT	AGM abstracts the executed lease and diarizes every critical date: option notices, escalations, reconciliations and insurance certificate renewals. The abstract becomes the working record for billing and recoveries.

Responsibility Under the Lease | LANDLORD AND TENANT

A single-tenant industrial lease places most of the building on the tenant, and AGM's scope follows that allocation. Below is the split AGM recommends for a lease on this building.

OBLIGATION	PROPOSED	AGM'S ROLE
Roof, structure, foundation	Landlord	Inspection, budgeting, contractor selection and project oversight
HVAC service and replacement	Tenant service, landlord replacement	Hold the service records. Coordinate and budget replacement
Parking lot, paving, striping	Landlord	Condition tracking, multi-year capital plan, bid and oversight
Fire sprinkler system	Landlord, recovered	Confirm the annual certification is current and on file
Utilities	Tenant	Verify transfer at commencement. Hold accounts during vacancy
Interior repairs and janitorial	Tenant	Lease compliance checks only
Landscaping and grounds	Landlord, recovered	Vendor contract, oversight and annual recovery billing
Property taxes and insurance	Landlord	Pay, allocate and bill back per the lease. Reconcile annually
Tenant insurance certificates	Tenant	Collect, verify limits, diary renewals and follow up on lapses
Environmental compliance	Landlord	File custody and consultant coordination

The Property

A 24,592 SF single-tenant industrial building on 1.41 acres in Renton. The asset, the lease status, the responsibility split under the lease and the compliance obligations that come with an industrial site.

838 SENECA AVE SW

Environmental & Compliance | THE MANAGEMENT RISK ON THIS PROPERTY

Industrial sites in this corridor often carry continuing obligations: monitoring wells, periodic sampling, reporting to the Department of Ecology and site access for consultants. AGM administers them on Ownership's behalf.

CUSTODY 01

Document Custody

Prior assessments, consultant reports, regulatory correspondence, sampling results and any recorded restrictions, held in the Owner Portal and available on request.

Document Vault · Version Control · Owner Access

CALENDAR 02

Obligations on a Schedule

Sampling intervals, report submission dates and certification renewals are diarized and tracked to completion. Ownership sees the schedule and its current status in the monthly report.

Compliance Calendar · Deadline Tracking · Monthly Status

COORDINATION 03

Consultant and Tenant Access

Site visits are booked with the consultant and cleared with the tenant under the lease notice provisions, with an escort where the lease asks for one. Each visit is recorded with its date, purpose and attendees.

Site Access · Tenant Notice · Visit Log

COST 04

Budget and Approval

An annual budget line with a standing approval threshold, set by Ownership. Work above it comes back for approval before it is authorized.

Annual Budget Line · Approval Threshold · Variance Reporting

Your Team

One property manager is accountable for this building, supported by accounting, management support and a paralegal. Each person is named, with a direct line.

YOUR AGM TEAM

One manager is accountable for this building. Three colleagues support her. Each is named below with a direct line.

Your Property Manager | DAY-TO-DAY POINT OF CONTACT

DIRECTOR OF REAL ESTATE / SENIOR PROPERTY MANAGER · 838 SENECA AVE SW

Cindy Miller

Cindy is Ownership's point of contact. She runs daily operations, holds the vendor relationships, reviews every invoice before payment, prepares the monthly report and brings Ownership the decisions that require approval.

Her background is in asset management, contract management and consulting. Before AGM she managed more than 1.6 million square feet of medical, office, retail and industrial property.

FIT FOR THIS BUILDING

Cindy has worked on industrial property throughout her career, including single-tenant buildings of 112,000, 197,910 and 10,830 square feet. She has researched and contracted vendors across the trades, including environmental work for fire, mold, asbestos and illegal grow operations.

She completed extensive OSHA inspections and training for a 94,000 square foot medical plaza and maintained compliance requirements under GSA leases in multiple locations.

Most of the leases she has managed are NNN or modified NNN. A net lease shifts many expenses to the tenant, but ownership keeps its own responsibilities. On this building Cindy would verify the lease obligations, track rent and escalations, answer tenant, owner and lender inquiries, process the payables that belong to ownership and prepare the financial reports, along with the rest of the day-to-day work.

YEARS IN COMMERCIAL PROPERTY MANAGEMENT

Over 30 years

YEARS WITH AGM

Less than one year. Before AGM, VP and Senior Property Manager at a prior company for over 20 years.

INDUSTRIAL SPACE MANAGED BEFORE AGM

ACCOUNTABILITY

One accountable manager and three named colleagues. Full contact details, including the 24/7 emergency line, are on the last page.

The First 90 Days

Transition requires one meeting and a signature from Ownership. What AGM takes over in the first week, how vendors and reporting get started, and the outcome at ninety days.

THE FIRST 90 DAYS

03 / 09

Transition requires one meeting and a signature from Ownership. AGM carries out the rest. This is the plan for the building as it stands today, vacant and being marketed.

Transition Plan | DAY ONE TO DAY NINETY

Day 1–7

TAKE OVER THE BUILDING

AGM takes custody of the records, the funds and the keys.

- Two accounts opened in Ownership's name: operating, and a separate trust account for deposits
- Two years of expense history, tax bills, utility accounts, insurance policies and loss runs
- Environmental file: assessments, consultant reports, sampling and reporting schedule
- Keys, alarm and gate codes inventoried, and re-keyed where the holder set is unknown

Day 8–30

GET VENDORS GOING

Vendors are onboarded and the building is inspected.

- Utility and vendor accounts transferred. Vendor W-9s and insurance certificates collected
- Fire sprinkler certification, alarm monitoring and backflow test confirmed current
- Full site inspection with a dated photographic condition record, roof to paving
- Property and budget loaded. Owner Portal access issued to Ownership and its accountant

Day 31–60

GET REPORTS IN

AGM delivers the first reports and the review findings.

- First full monthly financial package delivered
- Vendor contracts rebid where pricing is off market
- Deferred maintenance list with estimated cost and urgency
- Assessed value reviewed against the King County appeal deadline, with a recommendation

Day 61–90

OUTCOME

Operations run smoothly and the reporting cadence is set.

- Vendors under contract and onboarded
- Twelve-month operating budget and five-year capital plan presented for approval
- Monthly reports in the Owner Portal by the 15th, every month
- Reserve level and spending approval thresholds agreed

The First 90 Days

Transition requires one meeting and a signature from Ownership. What AGM takes over in the first week, how vendors and reporting get started, and the outcome at ninety days.

THE FIRST 90 DAYS

03 / 09

Once a Tenant Is Secured | SECOND TRACK

TENANT ONBOARDING

When a new tenant is secured, the second track starts with tenant onboarding. AGM abstracts the executed lease and diarizes every critical date, gives the tenant payment instructions, Cindy's direct line and the 24/7 number, sets up rent and recovery billing, collects the tenant's insurance certificate and confirms who is responsible for what under the lease. The building then runs as a leased, operating asset.

This is a general overview only. Timing and scope are confirmed with Ownership and adjust to the building.

Day-to-Day Management

The work that transfers from Ownership on the commencement date: tenant calls, vendor coordination, reimbursements and year-end numbers. Scope and inspection frequency are sized to a single-tenant industrial building.

This work stops being Ownership's on the commencement date.

TODAY

Ownership handles this.

- × Taking tenant calls at any hour
- × Finding, vetting and scheduling vendors, then checking the work
- × Chasing reimbursements, CAM charges and late payments
- × Tracking insurance certificates and following up on lapses
- × Coordinating consultant access and tracking compliance deadlines
- × Paying and coding invoices, and keeping the records
- × Assembling year-end numbers for the accountant
- × Tracking the option notice date

WITH AGM

Ownership reviews a report and approves decisions.

- ✓ The tenant calls Cindy, or the 24/7 line after hours
- ✓ Vendors are under contract, insured and supervised by AGM
- ✓ Billing, collection and reconciliation run on a schedule
- ✓ Certificates are collected, verified and diarized
- ✓ Compliance obligations sit on a calendar AGM maintains
- ✓ Invoices are reviewed, coded, paid and filed
- ✓ The year-end package goes to the accountant
- ✓ Every critical date is diarized and reported in advance

The tenant-facing items begin at lease commencement. Everything else transfers on the management commencement date, while the building is still vacant.

Day-to-Day Management

The work that transfers from Ownership on the commencement date: tenant calls, vendor coordination, reimbursements and year-end numbers. Scope and inspection frequency are sized to a single-tenant industrial building.

ONGOING

01

Repairs & Maintenance

Coordination of landlord-obligation repairs within budget, with Ownership approval above the agreed threshold. Tenant-obligation items are tracked for lease compliance only.

- Vendor Coordination
- Work Order Records
- Approval Thresholds
- Warranty Tracking

INSPECTION

02

Site Inspections

A dated, photographed exterior and common-area inspection on a schedule set to the asset. Interior access follows the lease notice provisions.

- Quarterly Exterior Inspection
- Annual Interior Walk
- Photographic Record
- Condition Reporting

Frequency: *proposed quarterly for a leased single-tenant building and monthly while vacant. Ownership sets the final frequency.*

RESPONSE

03

24/7 Emergency Response

After-hours calls route to an on-call AGM representative for assessment, vendor dispatch and notification of Cindy and Ownership, under the authority limits in the agreement.

- On-Call Line
- Immediate Assessment
- Vendor Dispatch
- Owner Notification

Emergency authority: *AGM may act without prior approval only to prevent injury or further property damage. Ownership is notified the same day.*

VACANCY

04

Interim Vacancy Protection

While the building is unleased AGM runs security and condition checks, keeps utilities and building systems live and monitored, holds fire sprinkler monitoring and inspection, and maintains the grounds. The building stays in condition to show, and AGM supports the marketing broker as needed.

- Security Checks
- Systems Monitoring
- Sprinkler Inspection
- Grounds & Landscaping
- Lease-Ready Condition

Day-to-Day Management

The work that transfers from Ownership on the commencement date: tenant calls, vendor coordination, reimbursements and year-end numbers. Scope and inspection frequency are sized to a single-tenant industrial building.

DAY-TO-DAY MANAGEMENT

04 / 09

Capital Projects | PLANNED, BID, SUPERVISED

Multi-Year Capital Planning

Major systems are inventoried with remaining useful life and replacement cost, so roof, HVAC and paving are scheduled years ahead of replacement. Ownership approves the plan annually and sets what is funded.

- Useful Life Inventory
- Five-Year Forecast
- Reserve Recommendation
- Annual Reapproval

Project Execution

For approved work AGM defines the scope, takes competitive bids from licensed and insured contractors, awards the contract with Ownership's approval, oversees performance, collects lien releases and builds the closeout file. Project coordination is billed separately, at a fee agreed before the project starts.

- Competitive Bids
- Vendor Compliance
- Performance Oversight
- Lien Releases
- Closeout File

Reporting & The Owner Portal

The same package in the Owner Portal by the 15th of every month, in a format Ownership's accountant can use without rework. Segregated bank accounts, separated duties and monthly reconciliation behind it.

Ownership receives the same package by the 15th of every month, in a format its accountant can use without rework.

REPORTING 01

Monthly Package

Covers the prior month in full, with the supporting detail sitting behind each statement. Ownership sets the format and the distribution list.

- Balance Sheet
- Income Statement
- Rent Roll & Lease Expirations
- A/R & A/P
- Budget vs. Actual
- Bank Reconciliation
- Paid Invoices
- Compliance Status

LEASE ADMINISTRATION 02

Billing & Reconciliation

Rent and escalations billed on the lease terms. Operating expense recoveries allocated and billed back as the lease provides. An annual reconciliation issued with its supporting detail.

- Rent & Escalations
- NNN Allocation
- Annual Reconciliation
- Credits & Charges
- Collection Follow-Up

Lease alignment: *every charge is issued in accordance with the executed lease, with the calculation shown.*

BUDGET 03

Annual Budget & Forecast

An annual operating budget built from the building's expense history and the capital plan, presented for Ownership's approval and tracked monthly. Variances are explained in writing.

- Operating Budget
- Capital Forecast
- Variance Analysis
- Reforecast

CONTROLS 04

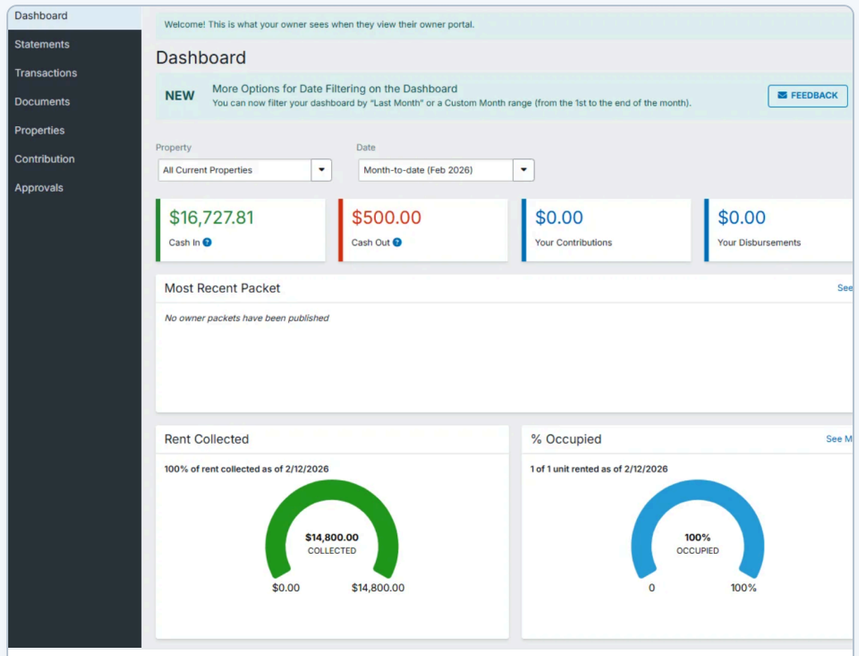

Banking & Financial Controls

Funds are held in accounts in Ownership's name, with tenant deposits in a separate trust account, kept apart from AGM's operating funds and from other properties. Duties are separated between the manager who approves and the accountant who pays, with monthly reconciliation.

- Segregated Accounts
- Separation of Duties
- Approval Thresholds
- Monthly Reconciliation

Reporting & The Owner Portal

The same package in the Owner Portal by the 15th of every month, in a format Ownership's accountant can use without rework. Segregated bank accounts, separated duties and monthly reconciliation behind it.

OWNER PORTAL · DASHBOARD

Profit and Loss

Income and expense against budget, for the month and year to date, with the detail behind each line and the paid invoice attached.

Distributions and Cash Position

Cash on hand, reserve balance, distributions paid and scheduled, and the contribution history, available at any time.

Year-End and Tax Documents

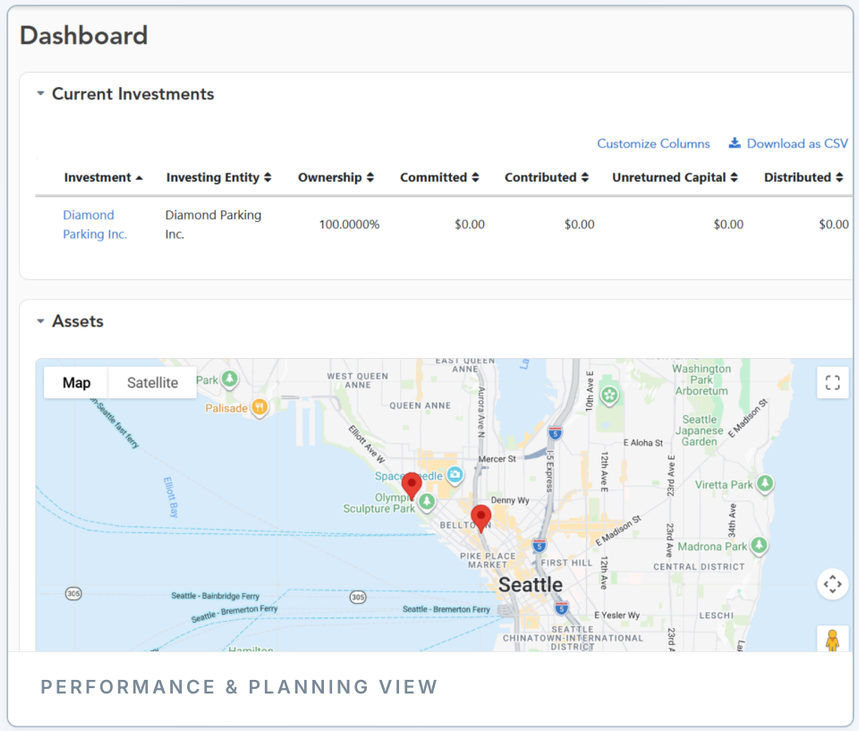

K-1s where the ownership structure produces them, 1099s, the year-end package and the capital expenditure schedule. Ownership's accountant can download them directly.

Document Vault

Lease and amendments, the environmental file, insurance policies and certificates, vendor contracts, warranties and project closeouts.

Reporting & The Owner Portal

The same package in the Owner Portal by the 15th of every month, in a format Ownership's accountant can use without rework. Segregated bank accounts, separated duties and monthly reconciliation behind it.

PERFORMANCE & PLANNING VIEW

Performance Against Plan

Actual results tracked against the operating plan, with variance explained, so decisions are made against current numbers.

Long-Term Planning

The five-year capital plan and the reserve position in one view, showing what the building will require and when.

The tenant has a separate portal for payments, balances, lease documents and work orders. The building also has a public website, used for leasing and as the access point to both portals.

DELIVERY COMMITMENT

Monthly financial package in the Owner Portal by the 15th. If a package will be late, Cindy notifies Ownership before the 15th.

Investment Strategy

The investment objective AGM needs from Ownership, and the items AGM would consider with Ownership.

AGM builds the operating plan from Ownership's investment objective. The monthly reports then measure the building's results against that plan.

Investment Objective | ITEMS TO CONSIDER

Items that would be considered are the following.

Packaged for Sale

The objective over the first 90 days is a conversation with Ownership about holding or selling.

Distributions and Reserve

How often distributions are made, and the reserve held against the five-year capital plan.

Capital Items

Roof, HVAC, paving and electrical service over the next five years, and what Ownership is prepared to fund.

Environmental Budget

An annual budget line with a standing approval threshold, set against the current obligations, the consultant of record and last year's cost.

Spending Authority

A per-item limit for unbudgeted spending, set with Ownership, with emergency authority limited to preventing injury or further damage.

Reporting Distribution

The accountant, attorney, lender and any family members with an interest, each with portal access at the level Ownership chooses.

Marketing Broker

Another broker is marketing the building. AGM will support that broker as needed.

Track Record

A building AGM took on, what the takeover found and what it produced for the owner. Then the comparable assets under management and where AGM already has vendors under contract.

TRACK RECORD

Case Study | TAKEN ON AND MANAGED

INDUSTRIAL

Pacific Business Park, Pacific, WA

136 Stewart Road SE · 42,000 SF across multiple buildings on 2.78 acres · multi-tenant light industrial · AGM-managed since 2023

CONDITION AT TAKEOVER

A fully leased light industrial park serving automotive and trades users, in a submarket with steady demand for smaller incubator-style space. Twenty-two tenants in place, at full occupancy.

ACTION TAKEN

AGM brokered the $8.2M transaction, syndicated the ownership fund that bought it in a 1031 exchange, and took on management at closing. One firm handled the sale, the capital and the operations.

$8.2M	100%	22
Acquisition price, May 2023	Occupancy at acquisition	Tenants

Pacific Business Park figures are taken from AGM's own published acquisition record of 14 June 2023 and the portfolio data behind agmrealestategroup.com.

$750 per month while the building is vacant. On lease commencement, 3% of gross rents subject to a $1,500 monthly minimum, plus a one-time $1,500 onboarding fee.

Management Fees

$750 per month while the building is vacant. On lease commencement, 3% of gross rents subject to a $1,500 monthly minimum, plus a one-time $1,500 onboarding fee.

MANAGEMENT FEES

08 / 09

Included in the Monthly Fee | NO ADDITIONAL CHARGE

Monthly financial package

Including the annual operating expense reconciliation and year-end documentation.

Owner Portal access

For Ownership and anyone Ownership designates, including its accountant.

Compliance file custody

Lease, insurance and environmental file maintenance, and consultant coordination.

Master Insurance Program | OPTIONAL

Eligible managed assets go into a grouped insurance structure instead of being marketed one building at a time, which can support broader coverage capacity and economies of scale against an individually placed policy. Availability, pricing and terms are subject to underwriting review, property eligibility and carrier approval.

OFFER

AGM will obtain a no-obligation quote for 838 Seneca Ave SW under the Master Program and present it beside the current premium and coverage. This offer stands whether or not Ownership engages AGM for management.

Agreement & Contact

The proposed next steps, every direct line including the 24/7 emergency number, and a copy of AGM’s standard management agreement to review.

AGREEMENT & CONTACT

09 / 09

The proposed next steps and every direct line come first, followed by AGM’s standard management agreement to review.

Next Steps | PROPOSED

01

Walk the building.

Cindy meets Ownership at 838 Seneca, walks the property and answers the questions this proposal raises. AGM will work around Ownership’s schedule.

02

Start management.

When Ownership is ready, AGM sends the agreement for signature and the ninety-day plan begins on the commencement date. AGM needs the environmental file and the expense history. AGM gathers the rest.

Agreement & Contact
